

PORTABLE ROLL-IN WHEELCHAIR SHOWER

Affordable • Portable • Durable
Self-contained • Hygienic

The Amramp Shower is a great alternative to a costly bathroom renovation!

Converting a large bedroom into an accessible bathroom costs about \$45,000

The average cost of a no-frills upgrade for a small 5' x 7' bathroom is about \$25,000

Add to that the time, inconvenience and frustration of having major renovations done to a home

The Amramp portable, roll-in shower is a fraction of those costs and is available immediately.

Perfect to use while your bathroom is being renovated

Portable Roll-in Shower

A portable, affordable, self-contained shower solution

People with mobility challenges still need and enjoy a warm, cleansing shower.

A dignified alternative to a sponge bath

Reduces the risk of infection and skin damage

Removes soap better than a sponge bath

Rinses the skin with fresh, clean water

No plumbing required

No home modifications

Shower in any room - **even on carpeting!**

Use in the kitchen, bathroom, bedroom or anywhere else with access to warm water

Easy storage between uses

The Amramp shower is for people using wheelchairs who:

Live in rental units

Have a short term disability, such as recovering from an accident or surgery

Want an affordable alternative to costly home renovation

Are too sick or weak for traditional showers or baths

Like to travel - relatives, friends and hotels usually do not have accessible bathrooms

The Amramp shower classifies as "reasonable accommodations" to ADA regulations for Subsidized Housing.

Just roll-in, shower and roll back out!

FEATURES

Attaches easily to any faucet or hot water source for a nice, hot shower
